DISASTROUS FIRE

\$200,000 BLAZE AT WETASKIWIN

Business Portion Completely Wiped Out.

Wetaskiwin, June 23rd. Special to the Bulletin.

This morning at 2:40 o'clock the most disastrous fire in the history of the town of Wetaskiwin took place. The fire originated in Herick's store, it is thought by many to have started in the hall over the store where the Clara Hamner company had given a performance last night. The buildings from Herick's store to Ross's book store inclusive, have been entirely destroyed. Schmitt's liquor store, which had a brick fire wall gave the firemen great assistance in stopping the progress of the fire but so, until that building was entirely gutted. Very little of the contents of any of the buildings were saved although a considerable amount of small goods were saved from the hotels and nearly every thing was saved from the livery stable occupied by P. Falenau. The buildings burned are as follows at an approximate value of \$200,000: J. W. Herick's store, and contents. A. J. Lormor's offices, Criterion hotel and contents, owned by P. Hamlin; livery stable, owned by P. Falenau. Dr. Reid, occupied by J. Clegg; John West's general store and contents. G. H. L. Bissinger's book store and contents; office of W. J. McNamara, real estate agent; liquor store partly destroyed, contents damaged. John West's furniture store was also damaged. John West lost about \$35,000 over and above his insurance. The Clara Hamner company lost all their scenery, wardrobe, in fact every thing they had. Had it not been for the rain the fire would not have left a trace of the business portion of the town. The fire brigade and citizens worked faithfully for three hours before the flames were conquered. It is impossible at present to learn the amount of insurance held by the various losers but the losses will be heavy in every case. Much damage by the rain was done to goods removed from buildings that were in danger. Hotel guests saved their effects and turned in and worked effectively.

Winnipeg, June 23rd. A son of Judge Nesbitt, Ottawa, was drowned yesterday.

JOURNEYING TO THE CAPITAL. King Peter has left Geneva on his way to Belgrade.

IN THE ONTARIO LEGISLATURE. Gomer closed his speech on the commissioners' finding in the Ontario Legislature yesterday.

GRIST MILL BURNED AT ELKHORN. A fire in Travis grist mill at Elkhorn did \$1,000 damage.

THE NORTHERN LEAGUE. The Maroons defeated Fargo and Grand Forks won from Superior in yesterday's baseball games.

MARCONI'S SCHEME A SUCCESS. Wireless messages are being sent daily from Cape Breton to Cornwall, England.

CANADA ATLANTIC EXTENSION. The Canada Atlantic Railway will be extended to the Soo, some three hundred miles, at once.

RUNAWAY TRAIN AT SPOKANE. A Great Northern train ran at full speed through Spokane, finally jumping the track.

BRIGHT CROP PROSPECTS. The Canadian Northern crop report for the week shows that light rains have helped growth.

IMPERIAL POLITICS. Another motion of Mr. Chaplin in favor of retaining the grain tax was defeated in the British Commons.

WHEAT AND OATS. Fort William wheat, No. 1 hard, 30 3/4 cents a bushel. Winnipeg oats, No. 2 white, 32 cents a bushel.

LOCAL

—Calgary defeated Olds in baseball on Friday by a score of 18 to 5.

—In the Little Grand Prairie district the wild prairie vines are over eighteen inches long.

—The new elevator for the Dowling Milling Company near their mill is almost completed.

—A Good Roads association has been formed among a number of the business men of Fort Saskatchewan.

—Wm. C. Pratt will open a general music store in one department of Jno. Ross's new store on Jasper avenue West.

—The earth taken up in excavating for the cellar of the Sandison block, is being dumped over the bank at the rear of the Bu'etia office.

—Winnipeg contractors are suffering severely from a brick famine. The whole output of Winnipeg brick yards for several weeks in advance has been cornered.

—Although having nothing of the nature of a flood, the river has been quite high the past few days. Yesterday's rain will tend to further raise the water.

—S. S. Taylor, K.C., a former Edmonton lawyer, has been unanimously nominated by the Nelson Liberals to represent that constituency in the British Columbia legislature.

—L. Urquhart, fire, big o' m' m' m' will occupy the store formerly used by Mr. Gilmer as a grain warehouse. It is at present being renovated and will soon be ready for occupation.

—Calgary Herald.—It is very probable a host team from the Calgary fire brigade will go to Edmonton to enter some of the contests there during exhibition week.

—The estimates of the Territorial Legislative Assembly contain an item of \$2,500 which provided for payment of relief and assistance rendered to the residents of Frank, Alta., at the time of the rockslide at Turtle Mountain.

—After several weeks of sunshine, rain commenced to fall Sunday night. Monday morning was dull and overcast and in the evening rain came down in torrents. It is still raining though. It will likely soon break up. It is said that the rain is comparatively local and that Edmonton has got more than her share.

—Mr. J. Murray was in town yesterday. Mr. Murray arrived in Edmonton a few months ago from Scotland and rented a farm nine miles north of St. Albert. The grain in that district is showing up exceedingly well and Mr. Murray and family are greatly pleased with the country. They have taken up homesteads in the Little Grand Prairie country.

—The sidewalk which is now being built down the Bellamy hill to the station will be a great convenience. It is elevated at the steep part of the hill by several steps, followed by a few yards run of level sidewalk. This is continued until the walk is lowered to almost the level of the road. It then runs on a slight incline until level ground is reached, where it crosses the road and proceeds to the station.

—John Reihardt, Los Angeles, Joseph Reihardt and William Ackerman San Francisco, arrived in Edmonton on Saturday night to look over the Edmonton district as a result of reading pamphlets descriptive of the district, issued from this office. The party represent a large number of well-to-do German families who are anxious to come to the Canadian west. The party is in charge of C. W. Reuter, Dominion immigration agent.

—The Calgary labor strike still draws on. The teamsters and carpenters as a body are still out though several have returned to work. At first public opinion was against the strikers but the scenes gradually shifted until the public thought the employers of labor should go half-way to meet the men. At a union meeting held Thursday night, men representing both factions gave addresses. However the meeting led to no definite action being taken to settle the strike and the situation remains unchanged.

BY-LAW DEFEATED

Thirty-three electors turned out yesterday to vote on by-law No. 249 to provide for raising the sum of \$8,000 to be expended for the purpose of acquiring lands for obtaining gravel for municipal uses, and for a nuisance ground for the purpose of disposing of the sewerage and other refuse of the municipality. Twenty-one votes were cast for the by-law and twelve against. It was defeated by one vote. A two-thirds vote is required to pass the by-law.

FRENCH CANADIAN SETTLERS

Rev. Father Lagimodiere, O. M. I., colonization agent, arrived in Edmonton last night with a party of thirty-two French Canadian settlers for the Edmonton district from Quebec. EXHIBITION NOTES

A meeting of the directors of the Ed-
monton exhibition was held in the
P. F. Trust office yesterday evening
when final preparations for the exhi-
bition were made. The situation of
the Fair grounds offers very easy op-
portunity to those so inclined to steal
their way into the exhibition. The
management is taking steps this year
to see that this will not be practiced as
before. A mounted policeman will
patrol the fences along the east and
the grounds and all offenders will be
prosecuted. A special force of police
for the grounds is being sworn in with
constable Rudd as chief.
Entries for the exhibition are coming
in rapidly and the management ex-
pectantly requests that all entries be
brought in at the earliest possible mo-
ment, to provide against possible con-
fusion at the last. There are still
several spaces left in the Exhibition
Hall for the placing of exhibits.
Granted good weather, the exhibition
on June 29th, July 1st and 2nd, will be
an unbounded success.

British Columbia Floods

Vancouver, B. C., June 17. — The flood in the Fraser river is still rising slowly but surely and at least one of the large dykes is threatened. This is at the Great Chilliwack valley, which suffered so much in the disastrous floods of 1894. It has been a heavy task to keep the several large breakwaters clear, and a large gang is kept constantly busy watching them.

A small leak started under one of these breakwaters yesterday and every effort is being made to stop it, but the water was still coming in today. However, the flow had not increased to any appreciable extent and hopes are entertained that it will be stopped entirely before long. Should this valley be flooded hundreds of settlers would suffer and over 20,000 acres of land, nearly all of which is taken up, will be under water.

Although the volume of water coming down the river is still increasing, the tides are now falling, being several inches lower each day. The highest tide of this time of the year, occurred on Thursday last. Every section of low lying land along the banks of the Fraser, which is not dyked, is now under water and a large number of the farm houses surrounded by water could be seen from the excursion steamers going up to Chilliwack yesterday. In one instance a man was seen using a boat to go from his house to the barn.

Other mills beside the Burnett saw mills are suffering in consequence, owing to the high water. The Royal City mills are only able to run for part of the day or during low tide.

Sections of the Great Northern track near Liverpool are under a few inches of water, but the track bed is solid and no trouble has been experienced so far.

Yale, June 17. — The river at eight o'clock had risen two inches in the last twelve hours. The weather is cloudy and cool this morning.

Cattle Shipments in England

London, June 18. — A new force is given to the argument for the admission of Canada's store cattle by Mr. Chamberlain in his Imperial reciprocity campaign. The secretary of the Canadian Store Cattle Admission Association of Edinburgh, writing to the press, says: "The exclusion of Canadian store cattle, the board of agriculture is proving itself one of the worst enemies of the country. Actual experience at the block has proved that Canadian cattle are healthier than the British. It surely is a mistaken policy for the board of agriculture to encourage the breeding and rearing of young stock, which means more grass land laid down, while the more grass land is laid down, the more the country is overstocked, and the more the British claim to free entry is powerful."

Canada is being officially recommended for Italian farm emigration. The Italian consul at London is being asked by numerous correspondents in Italy whether there is any opening for Italian emigrants. The British agricultural district send a report to the emigration bureau at Rome that agricultural employment is too unsteady and too poorly paid in England, and that all farming is too heavily handicapped by foreign competition.

PREVENTION OF FOREST AND PRAIRIE FIRES

The necessary arrangements have been made for the proper and prompt enforcement of the provisions of the law for the prevention of prairie and forest fires throughout Manitoba, the Northwest Territories and within the railway belt in the province of British Columbia, and any persons violating in any way the said provisions will render themselves liable to the utmost penalty provided in the law.

Special attention is called to the necessity for the greatest caution being observed in the use of fire by settlers, campers and others during the dry summer months, and to the penalties imposed for violation of the provisions of the law in this regard.

The penalties vary from \$5 to \$200, besides any that may be imposed by civil action for damages caused by such fires.

The following rules should be observed:—

1. In building a camp fire choose a place that is sheltered from the wind and clear away any moss or inflammable material surrounding it.
2. Be sure thoroughly to extinguish your camp fire before leaving it.
3. Be careful not to throw away a cigar stub or match on the prairie or in the woods before it is extinguished.
4. Settlers desiring to burn brush and log heaps in clearing their land must do so at regular seasons of the year and not allow the fire to escape from their premises.

All employees of labor should see that their employees whose work is in the open air, are furnished with copies of the act respecting prairie and forest fires or other instructions in regard thereto, as such employees are responsible to the public for any fire caused by their servants.

As every person in the community is liable during the dry season to suffer more or less by prairie or forest fires, and as it is an undoubted fact

that in most cases these are started through carelessness, it is hoped that these suggestions will be observed.

Settlers are therefore earnestly requested to co-operate in every way possible with the officers of the government with a view to the prevention of fires and the strict enforcement of the law in that behalf.

Stratton on 3 amey Charges

Toronto, June 18. — Stratton continued his address on the Gagey investigation report in the Legislature this morning. Altogether his address occupied about four hours and the most interesting part had reference to Hammond's evidence before the commission, in which the witness said Stratton requested him to forget some things.

The speaker declared Hammond's statement had contained an intended reference to the Carnegie interview and to letters which he had written to the Globe over the signature of "The Lawyer," on the Toronto and Niagara Company's power question.

He said he made no attempt to see Hammond, but meeting him one day in the corridors he had asked him if he could not forge some of that stuff. He claimed that Hammond's statement had been distorted, and that was the one crumb of comfort the opposition had. Mr. Stratton declared his willingness to resign tomorrow if Hammond would say that he asked him to withhold one of his statements that he had brought on the Gagey case.

WINNIEPES FAIR

The Winnipeg fair will this year introduce a novelty in the line of fireworks displays, which has never been attempted before on this side of the Atlantic Ocean. Those responsible for the attractions at the fair have, after careful consideration, come to the conclusion that the military spectacles of the last four fairs, good and successful as they were, have to a certain extent, lost the charm of novelty, which is of course one of the essentials for successful entertainments. With their characteristic enterprise, they have therefore arranged to have an absolute novelty in the way of a fireworks spectacle at this year's fair.

The production which has been decided upon can best be described as a fireworks transformation spectacle, and judging by its description, it should prove to be a great drawing card. Mr. G. V. G. of New York, the well-known designer of bulletins and other spectacular shows, has been engaged to produce his latest work "Darkness and Dawn." Some idea of the labor necessary to produce such a spectacle can be gathered when it is stated that the dimensions of the scenery are as follows: Front display, 250 feet; depth, 75 feet; height, 20 feet. More than a hundred people are engaged on the spectacular part of the spectacle, and the costumes will be the most elaborate and expensive seen in connection with such productions. Over six thousand yards of canvas is used in the scenery, special machinery has been constructed to control the curtains, some of which are 150 feet long and 25 feet high.

The seven scenes are entitled as follows—

1. The Way of Darkness.
2. The Hall of Flames.
3. The Place of Darkness.
4. The Flower Jungle.
5. The Awakening of Nature.
6. The Awakening of the Waters.
7. The Dawn of Dawn.

In the sixth scene a very novel and beautiful effect is given by six female dancers, the whole being worked with entirely new electric effects.

The designers of this new spectacle assert that it will be the greatest success ever produced in the open air.

Explosion at Woolwich

London, June 18.—Fourteen men were killed and thirteen injured by an explosion in the Lyddite factory at the Woolwich arsenal this morning. Several of the victims were literally blown to pieces. The building was completely wrecked. The roof was blown off and the interior collapsed.

The explosion is attributed to the bursting of a shell. There were many pathetic scenes about the gates of the great arsenal, where thousands of relatives of the employees besieged the officials for information.

Six additional men are missing and it is believed they were blown to pieces. The remains of the victims were collected in buckets.
